

# All Purpose Cleaner Ammoniated 210 Ltr

Part No. RXSOL-16-1038-210 — Generated 10 Oct 2026

## 1. Product and Company Identification

|              |                                    |
|--------------|------------------------------------|
| Product Name | RXSOL-16-1038-210                  |
| Product Type | All Purpose Cleaner Ammoniated-III |

Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

|       |                                                          |
|-------|----------------------------------------------------------|
| Phone | +91 22 65113333 / 5555 / 9999 / 27611360                 |
| Fax   | +91 22 2781 1318 :::AOH :0091 9821214367                 |
| Email | <a href="mailto:mail@rxmarine.com">mail@rxmarine.com</a> |

## 2. Composition / information on ingredients

| Chemical Name                    | Concentration | CAS Number | EC Number | R Phrases* | Symbols |
|----------------------------------|---------------|------------|-----------|------------|---------|
| Alkylether sulphate              | 1-5           | 3088-31-1  | 221-416-0 | 36/38      | Xi      |
| Sodium dodecyl benzene sulfonate | 5-10          | 25155-30-0 | 246-680-4 | 38,41      | Xi      |
| Fatty alcohol ethoxylates        | 1-5           | 34398-01-1 | 500-084-3 | 22,41      | Xn      |
| Sodium carbonate                 | 1-5           | 497-19-8   | 207-838-8 | 36         | Xi      |
| Ammonia Liquid                   | 1-5           | 7664-41-7  | 231-635-3 | 34         | Xi      |

\*See Section 16

## 3. Hazards Identification

|                   |                                                                                        |
|-------------------|----------------------------------------------------------------------------------------|
| Odour             | Odourless.                                                                             |
| Appearance        | Liquid, pale yellow, soluble in water.                                                 |
| Contact with eyes | Risk of serious damage to eyes (R41).                                                  |
| Contact with skin | Repeated exposure may cause skin dryness or cracking (R66), Mildly irritating to skin. |
| Inhalation        | Vapours or aerosols may cause irritation of eyes, nose and respiratory tract.          |
| Ingestion         | The ingestion of significant quantities may cause gastro-intestinal disturbances.      |

## 4. First Aid Measures

|              |      |                                                                                                                       |
|--------------|------|-----------------------------------------------------------------------------------------------------------------------|
| Contact skin | with | Remove contaminated clothing immediately and drench affected skin with plenty of water. Then wash with soap and water |
| Contact eyes | with | If substance has got into eyes, immediately wash out with plenty of water for atleast 15minutes Seek medical advice   |
| Ingestion    |      | Never give anything by mouth to an unconscious person Give plenty of water to drink Seek medical advice if necessary  |

## 5. Fire-fighting Measures

- Noncombustible
- Carbon oxides may be formed
- Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions

## 6. Accidental Release Measures

|                           |                                                                                                 |
|---------------------------|-------------------------------------------------------------------------------------------------|
| Personal Precautions      | Wear protective clothing as per section 8.                                                      |
| Environmental Precautions | No special precautions are required for this product.                                           |
| Immediate Actions         | Shut off the source of leak if safe to do so.                                                   |
| Clean Up Actions          | Absorb spillage in the suitable inert material. Flush spill area with copious amounts of water. |
| Special Precautions       | Wear protective clothing as per section 8.                                                      |

## 7. Handling and Storage

|          |                                                                                                      |
|----------|------------------------------------------------------------------------------------------------------|
| Handling | The usual precautions for handling chemicals should be observed Eye wash bottles should be available |
| Storage  | Keep only in the original container in a cool, well-ventilated place (S3/9/49) Protect from frost    |

## 8. Exposure controls and personal protection

|                                |                                                                                                                                                                                                    |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure Limits                | There are no recommended or established controls for this product                                                                                                                                  |
| Exposure controls              | No special ventilation is required unless the product is used in a spray form                                                                                                                      |
| Occupational exposure controls | No respiratory protection is required unless subject to contact with sustain chemist Wear suitable protective clothing, including eye /face protection and gloves (plasticorrubberare recommended) |

## 9. Physical and chemical properties

|                             |                                       |
|-----------------------------|---------------------------------------|
| Odour                       | Odourless                             |
| Appearance                  | Liquid, pale yellow, soluble in water |
| pH                          | 8.5-9 at 100% concentration           |
| Boiling point               | 100°C at 760mm/Hg                     |
| Vapour pressure             | not known                             |
| Freezing point              | 0°C at 760mm/Hg                       |
| Completely soluble in water |                                       |
| Specific gravity (water=1)  | 1.03                                  |
| Non-combustible             |                                       |

## 10. Stability and reactivity

- This article is considered stable under normal conditions, No hazardous reactions are known if used for its intended purpose
- See Section 5

## 11. Toxicological information

|                           |                                                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Toxicological information | No experimental data available                                                                                                                     |
| Inhalation                | Vapours or aerosols may cause irritation of eyes, nose and respiratory tract Contact with eyes In cases of severe exposure, irritation may develop |
| Causes irritation         | Can cause damage to the eyes                                                                                                                       |
| Ingestion                 | The ingestion of significant quantities may cause gastro-intestinal disturbances                                                                   |
| Carcinogenicity           | No evidence of carcinogenic effects                                                                                                                |

## 12. Ecological information

|             |                                                                                                                        |
|-------------|------------------------------------------------------------------------------------------------------------------------|
| Ecotoxicity | This cleaning agent consists of readily biodegradable surfactants, all of which have only slight or moderate toxicity. |
|-------------|------------------------------------------------------------------------------------------------------------------------|

|                                  |                                                                     |
|----------------------------------|---------------------------------------------------------------------|
| Mobility                         | Completely soluble in water                                         |
| Persistence and Biodegradability | The components in this product are readily biodegradable.           |
| Bioaccumulation Potential        | Bioaccumulation of the components in this product is insignificant. |
| Other Adverse Effects            | Presents little or no hazard to the environment                     |

### 13. Disposal considerations

|                         |                                                                                                                                                                            |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Classification          | EU Waste class                                                                                                                                                             |
| Disposal Considerations | Don't discharge into drains or the environment, dispose to an authorised waste collection point Disposal should be in accordance with local, state or national legislation |

### 14. Transport information

- Not classified as hazardous for transport

### 15. Regulatory information

|               |                                                                                                                                                          |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Risk Phrases  | Risk of serious damage to eyes (R41)                                                                                                                     |
| Safety Phrase | In case of contact with eyes, rinse immediately with plenty of water and seek medical advice (S26) Wear suitable gloves and eye/face protection (S37/39) |

### 16. Other information

Text of Rand S phrase codes used in this safety data sheet:- R22: Harmful if swallowed; R36: Irritating to eyes R36/38: Irritating to eyes and skin; R38: Irritating to skin; R41: Risk of serious damage to eyes The information provide about the product on this Safety Data Sheet has been compiled from knowledge of the individual constituents

DISCLAIMER OF LIABILITY :The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge.
