

# Degreaser Odor Control .

Part No. RXSOL-10-1729-025 — Generated 10 Oct 2026

## 1. Product and Company Identification

Product Name           RXSOL-10-1729  
Product Type            Odor Control Degreaser Conc.

### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Phone                    +91 22 65113333 / 5555 / 9999 / 27611360  
Fax                        +91 22 2781 1318 :::AOH :0091 9821214367  
Email                    [mail@rxmarine.com](mailto:mail@rxmarine.com)

## 2. Composition / informationon ingredients

## 3. Hazards Identification

PRIMARY ROUTES OF ENTRY:           [ ] INHALATION [ ] INGESTION [ X ] SKIN ABSORPTION [ X ] EYE [ ] NOT HAZARDOUS

ACUTE EFFECTS                   Systemic: CNS depression producing headache, dizziness, numbness, loss of consciousness.

Inhalation:                        Irritation of upper respiratory tract. Exposure to high concentrations may cause systemic toxicity. Aspiration into lungs can cause chemical pneumonitis

|                         |                                                                                     |
|-------------------------|-------------------------------------------------------------------------------------|
| Eye Contact:            | Irritation.                                                                         |
| Skin Contact:           | Dermal irritation & dermatitis attributable to defatting of skin.                   |
| Ingestion:              | Irritation of gastrointestinal tract. See also systemic effects above.              |
| CHRONIC EFFECTS:        | Chronic exposure to high concentrations may cause some liver or kidney disfunction. |
| Medical Conditions      |                                                                                     |
| Generally Aggravated by | Liver or kidney disease. May aggravate pre-existing irritation.                     |
| Exposure:               |                                                                                     |

## 4. First Aid Measures

|               |                                                                                                                                  |
|---------------|----------------------------------------------------------------------------------------------------------------------------------|
| Eye Contact:  | Flush with water for 15 minutes. Get medical attention.                                                                          |
| Skin Contact: | Flush skin with water then wash with soap and water. If irritation occurs, get medical attention.                                |
| Inhalation:   | Remove to fresh air. If not breathing, administer artificial respiration. Get medical attention.                                 |
| Ingestion:    | Drink 3 to 4 glasses of water. Get immediate medical attention. If vomiting occurs, keep head below hips to prevent aspiration.. |

## 5. Fire-fighting Measures

|                                                          |                                                                               |
|----------------------------------------------------------|-------------------------------------------------------------------------------|
| FLAMMABILITY as per USA FLAME PROJECTION TEST (aerosols) | N/A                                                                           |
| Auto Ignition Temperature                                | N/D                                                                           |
| Flammability Limits in Air by % in Volume:               |                                                                               |
| % LEL:                                                   | N/D                                                                           |
| % UEL:                                                   | N/D                                                                           |
| FLASH POINT AND METHOD USED (non-aerosols):              | 111°F (TCC)                                                                   |
| SPECIAL FIRE FIGHTING PROCEDURES:                        | Burning product may give off                                                  |
| EXTINGUISHER MEDIA:                                      | Water fog, foam, dry chemical or CO2. Burning product may float on water..    |
| Unusual Fire & Explosion Hazards:                        | Burning product may float on surface of water and spread fire to other areas. |

## 6. Accidental Release Measures

## 7. Handling and Storage

|                                                       |                                                                                                                                                                                     |
|-------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Steps To Be Taken If Material Is Spilled Or Released: | Do not allow large spills to contaminate sewers, ground or surface waters. Contain spill & soak up in inert absorbent material. Place in leak-proof containers for proper disposal. |
| Waste Disposal Methods:                               | Dispose of in accordance with all local, state and federal regulations                                                                                                              |
| Precautions To Be Taken In Handling & Storage:        | Store in original shipping containers. Keep closed when not in use. Shelf life 1 year. Protect from extreme heat and cold.                                                          |
| Other Precautions &/or Special Hazards:               | KEEP OUT OF REACH OF CHILDREN. Read & follow label directions. Do not cut, weld or drill on drums whether full, part full or empty..                                                |

## 8. Exposure controls and personal protection

|                                        |                                                                                                                                         |
|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory Protection (specify type): | None required under normal conditions of handling and use.                                                                              |
| Protective Gloves:                     | Solvent Resistant.                                                                                                                      |
| Eye Protection:                        | Chemical goggles.                                                                                                                       |
| Ventilation Requirements:              | Special ventilation not normally needed. If required to maintain concentrations below specified levels use explosion proof ventilation. |
| Other Protective Clothing & Equipment: | Solvent resistant, as needed. Eyewash station and safety shower.                                                                        |
| Hygienic Work Practices:               | Do not eat, drink or smoke in work area. Wash hands after handling.                                                                     |

## 9. Physical and chemical properties

|                                                         |                                                             |
|---------------------------------------------------------|-------------------------------------------------------------|
| Boiling Point:                                          | N/D                                                         |
| Specific Gravity (H <sub>2</sub> O=1):                  | 0.93                                                        |
| Vapor Pressure :<br>PSIG @ 70°F (Aerosols) :<br>N/A     | N/A                                                         |
| Vapor Pressure (Non-Aerosols) (mm Hg and Temperature) : | N/D                                                         |
| Vapor Density (Air = 1):                                | >1                                                          |
| Evaporation Rate ( = 1) :                               | 1                                                           |
| Solubility in Water:                                    | Dispersible                                                 |
| Water Reactive:                                         | No                                                          |
| Appearance and Odor:                                    | Clear amber, non-viscous liquid with aromatic solvent odor. |

## 10. Stability and reactivity

STABILITY ☒ STABLE ☐ UNSTABLE

HAZARDOUS  
POLYMERIZATION ☐ WILL ☒ WILL NOT OCCUR

Incompatibility (Mat. to avoid): Strong oxidizing agents.

Conditions to Avoid: Heat , sparks and open flame.

Hazardous  
Decomposition Products: Oxides of nitrogen, carbon, hydrogen chloride, unidentified organics
