

# Cement Remover Gel

Part No. RXSOL-22-2218-025 — Generated 10 Oct 2026

## 1. Product and Company Identification

Product Name                    **RXSOL-22-2218-025**  
Product Type                    CEMENT REMOVER GEL

**Company Details:**

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Phone                            +91 22 65113333 / 5555 / 9999 / 27611360  
Fax                                +91 22 2781 1318 ::::AOH :0091 9821214367  
Email                            [mail@rxmarine.com](mailto:mail@rxmarine.com)

## 2. Composition / information on ingredients

| Chemical Name                               | Concentration | CAS Number | EC Number | R Phrases* | Symbols |
|---------------------------------------------|---------------|------------|-----------|------------|---------|
| Proprietary Blend                           | 20-40         | .....      | .....     | 34, 37     | C       |
| Corrosion Inhibitor                         | 5-10          | NA         | NA        | NA         | -       |
| Capryliminodipropionate                     | 6-8           | .....      | .....     | .....      | .....   |
| Hordaphos MDGB Phosphate ester, Clariant AG |               |            |           |            |         |
| Phosphoric Derivative                       |               |            |           |            |         |

\*See Section 16

## 3. Hazards Identification

Odour                            Free from fumes

Appearance                    GelLiquid, Clear, soluble in water.

Contact with eyes              Can cause damage to the eyes.

Contact with skin               Prolonged skin or eye contact may cause chemical burns.

Inhalation                       Causes severe irritation, May cause breathing difficulty.

Ingestion                        Not regarded as a potential route of exposure.,Causes burning sensatio.

## 4. First Aid Measures

|                   |                                                                                                                                                                                                                  |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Contact with skin | Remove contaminated clothing immediately and drench affected skin with plenty of water. Seek medical advice if necessary Contaminated clothing should be laundered before use                                    |
| Contact with eyes | If substance has got into eyes, immediately wash out with plenty of water for at least 15minutes.Irrigate eyes thorough lywhilst lifting eyelids Can cause damage to the eyes Obtain immediate medical attention |
| Ingestion         | Do not induce vomiting Never give anything by mouth to anunconscious person.Give plenty of water to drink Obtain immediate medical attention                                                                     |
| Inhalation        | Remove patient to fresh air Seek medical attention if ill effects.occur                                                                                                                                          |
| General           | In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible)                                                                                                       |

## 5. Fire-fighting Measures

- Non combustible
- Smoke from fires is corrosive, Hydrogen chloride may be formed
- Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions
- Substance evolves toxic fumes, wear self-contained breathing apparatus
- Use water spray or fog to knock down and absorb corrosive fumes

## 6. Accidental Release Measures

|                           |                                                                                                                            |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Personal Precautions      | Wear protective clothing as per section8.                                                                                  |
| Environmental Precautions | Do not allow to enter public sewers and water courses.                                                                     |
| Clean Up Actions          | Absorb spillage in inert material and shovel up Ventilate the area and wash spill site after material pick-up is complete. |
| Special Precautions       | Wear protective clothing as per section 8.                                                                                 |

## 7. Handling and Storage

|          |                                                                                                                                                                                                                                                |
|----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Handling | Avoid contact with skin and eyes(S24/25) Do not breathe vapour/fumes(S23) Eye wash bottles should be available Wear protective clothing as per section8 Ensure adequate ventilation Inuse, may form flammable/explosive vapour-air mixtur(R18) |
|----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Storage**

Keep only in the original container in a cool, well ventilated place(S3/9/49) Keep in acid store

## 8. Exposure controls and personal protection

Exposure Limits TLV(TWA)1mg/m<sup>3</sup>(HCl).

Exposure controls The undiluted product must not be used in a confined space without good ventilation.

Occupational exposure controls Wear suitable protective clothing, including eye/face protection and gloves(plastic or rubber are recommended) Respiratory protection may be required under exceptional circumstances when excessive air contamination exists Eyewash bottles should be available.

## 9. Physical and chemical properties

Odour Characteristic light smell

Appearance Gel Liquid, Clear, soluble in water

PH 1.5at 100%concentration

Boiling point ~100°Cat 760mm/Hg

Vapour pressure 105.5at 20degC

Vapour density (air=1)1.26

Freezing point ~-30°Cat 760mm/Hg

soluble in water Completely soluble in water

Specific gravity (water=1)1.06

Non combustible

## 10. Stability and reactivity

This article is considered stable under normal conditions, In use, may form flammable / explosive vapour-air mixture (R18), Reaction products may include hydrogen. Avoid over heating. Incompatible with alkalis (strong bases). Contact with nitrite (e.g. Diesel guard NB, Cooling Water treatment) liberates toxic gas.

## 11. Toxicological information

Toxicological information      Prolonged skin or eye contact may cause chemical burns.

Inhalation      Can cause damage to the respiratory system.

Contact with skin      Prolonged skin or eye contact may cause chemical burns.

Contact with eyes      Prolonged skin or eye contact may cause chemical burns.

Ingestion      Can cause damage to the digestive system.

Carcinogenicity      No evidence of carcinogenic effects.

## 12. Ecological information

Ecotoxicity      This product contains water-soluble and biodegradable composition.

Mobility      Emulsifies in water.

Persistence and Biodegradability      Most components in this product are not readily biodegradable.

Bioaccumulation Potential      Hydrocarbon solvents have the potential to bioaccumulate.

Other Adverse Effects      No environmental problems are expected when the product is used / handled correctly. In its intended use, the product will not be released into the environment.

## 13. Disposal considerations

Classification      This material and/or its container must be disposed of as disposal waste procedure.

Disposal considerations      Obtain the consent of pollution control authorities before discharging to waste water treatment plants (S54). Disposal should be in accordance with local, state or national legislation.

## 14. Transport information

## 15. Regulatory information

|                |                                                                                                                                                                                                                                                                                                     |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Risk Phrases   | Causes burns(R34) Irritating to respiratory system(R37)                                                                                                                                                                                                                                             |
| Safety Phrases | In case of contact with eyes, rinse immediately with plenty of water and seek medical advice(S26). Wear suitable protective clothing, eye/face protection and gloves(S36/37/39)<br>In case of accident or if you feel un well, seek medical advice immediately (show the label where possible)(S45) |

## 16. Other information

Text of R and S phrase codes used in this safety data sheet:

R34 Causes burns;

R37 Irritating to respiratory system

The information provided about the product on this Safety Data Sheet has been compiled from knowledge of the individual constituent. The data given here is based on current knowledge and experience. This Safety Data Sheet describes the product in terms of safety requirements and does not signify any warranty with regard to the product's properties. The data given here only applies when product used for proper application(s). The product is not sold as suitable.

**DISCLAIMER OF LIABILITY :** The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This MSDS was prepared and is to be used only for this product. If the product is used as a component in another product, this MSDS information may not be applicable.
