

# Scale Remover Silica Hard water

Part No. RXSOL-11-1102-025 — Generated 10 Oct 2026

## 1. Product and Company Identification

Product Name RXSOL-11-1102-025  
Product Type Scale Remover Hard water Silica

### Company Details:

**RX MARINE INTERNATIONAL**  
**105, A wing , BSEL , TECH PARK.**  
**VASHI ,NEW BOMBAY 400703 INDIA**

**Stock Point : Muscat - Barka, Fujairah, Mumbai, Gandhidham, Chennai, Kolkata, Visakhapatnam, Nairobi Kenya**

Phone +91 22 27815540 / 41 / 42  
Fax +91 22 2781 1318 ::AOH : 0091 9821214367

## 2. Composition / information on ingredients

| Chemical Name                                         | Concentration | CAS Number | EC Number | R Phrases* | Symbols |
|-------------------------------------------------------|---------------|------------|-----------|------------|---------|
| Mixture of soluble Acid including Ammonium Bifluoride | 20-40         | .....      | .....     | 34, 37     | C       |
| Corrosion Inhibitor                                   | 5-10          | NA         | NA        | NA         |         |
| Proprietary Mixture of Silica Dissolving Acid         | 2-5           | NA         | NA        | NA         |         |
| Phosphoric acid                                       | 32%           |            |           |            |         |

\*See Section 16

## 3. Hazards Identification

**Corrosive**

Odour Strong Smell of hydrogen chloride  
Appearance Liquid, Pale Yellow, soluble in water  
Contact with eyes Can cause damage to the eyes

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Contact with skin | Prolonged skin or eye contact may cause chemical burns                  |
| Inhalation        | Causes severe irritation, May cause breathing difficulty                |
| Ingestion         | Not regarded as a potential route of exposure.,Causes burning sensation |

## 4. First Aid Measures

|                   |                                                                                                                                                                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Contact with skin | Remove contaminated clothing immediately and drench affected skin with plenty of water. Then wash with soap and water When in doubt or symptoms persist, seek medical attention. Contaminated clothing should be laundered before reuse        |
| Contact with eyes | If substance has got into eyes, immediately wash out with plenty of water for at least 15 minutes. Irrigate eyes thoroughly whilst lifting eyelids Seek. immediate medical attention. Continue flushing with water until medical help arrives. |
| Ingestion         | Never make an unconscious person vomit or drink fluids Give plenty of water to drink Do not induce vomiting Seek immediate medical attention                                                                                                   |
| Inhalation        | Remove patient to fresh air Keep warm and at rest, in a half upright position. Loosen clothing. When in doubt or symptoms persist, seek medical attention.                                                                                     |
| General           | In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible) (S45).                                                                                                                              |

## 5. Fire-fighting Measures

- Non combustible.
- Smoke from fires is corrosive, Hydrogen chloride may be formed.
- Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions.
- Substance evolves toxic fumes, wear self-contained breathing apparatus.
- Use water spray or fog to knock down and absorb corrosive fumes.

## 6. Accidental Release Measures

|                           |                                                                                                                                                     |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal Precautions      | Wear protective clothing as per section 8 Vapours are heavier than air and may travel considerable distances to a source of ignition and flashback. |
| Environmental Precautions | Do not allow to enter public sewers and watercourses.                                                                                               |
| Immediate Actions         | Use appropriate containment to avoid environmental contamination (S57).                                                                             |
| Clean Up Actions          | Absorb spillage in inert material and shovel up Ventilate the area and wash spill site after material pick-up is complete.                          |

|                     |                                                                                                                                                                                                                                              |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Special Precautions | Wear protective clothing as per section 8 Avoid release to the environment. Refer to special instructions/Safety data sheets (S61) Vapours are heavier than air and may travel considerable distances to a source of ignition and flashback. |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 7. Handling and Storage

|          |                                                                                                                                                                                                                                                           |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Handling | Avoid contact with skin and eyes (S24/25). Do not breathe vapour/fumes (S23). Eyewash bottles should be available. Wear protective clothing as per section 8. Ensure adequate ventilation. In use, may form flammable/explosive vapour-air mixture (R18). |
| Storage  | Keep only in the original container in a cool, well ventilated place (S3/9/49). Keep in acid store.                                                                                                                                                       |

## 8. Exposure controls and personal protection

|                                |                                                                                                                                                                                                                              |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure Limits                | TLV (TWA) 20 ppm, 122 mg/m <sup>3</sup> (1,2-Dichlorobenzene).                                                                                                                                                               |
| Exposure controls              | The undiluted product must not be used in a confined space without good ventilation.                                                                                                                                         |
| Occupational exposure controls | Wear approved respirator if exposure likely to exceed MEL/OES Wear goggles giving complete eye protection Wear suitable protective clothing, including eye/face protection and gloves (neoprene or nitrile are recommended). |

Gloves

Suit

Visor

## 9. Physical and chemical properties

|                          |                                       |
|--------------------------|---------------------------------------|
| Odour                    | Strong smell of hydrogen chloride     |
| Appearance               | Liquid, pale yellow, soluble in water |
| PH                       | 1.5 at 100 % concentration            |
| Boiling point            | ~ 100 °C at 760 mm /Hg                |
| Vapour pressure          | 105.5 at 20 deg C                     |
| Vapour density (air = 1) | 1.26                                  |
| Freezing point~          | 30 °C at 760 mm/Hg                    |

Completely soluble in water

Specific gravity (water=1) 1.16

Non combustible

## 10. Stability and reactivity

- This article is considered stable under normal conditions, May cause rubber to swell
- Avoid overheating
- Incompatible with strong oxidizing substances, Contact with alkaline earth metals may form explosive gases, Contact with alkali metals may form explosive gases
- See Section 5

## 11. Toxicological information

|                   |                                                                 |
|-------------------|-----------------------------------------------------------------|
| Contact with skin | In cases of severe exposure, redness and irritation may develop |
|-------------------|-----------------------------------------------------------------|

|                   |                   |
|-------------------|-------------------|
| Contact with eyes | Causes irritation |
|-------------------|-------------------|

|           |                                          |
|-----------|------------------------------------------|
| Ingestion | May cause gastro-intestinal disturbances |
|-----------|------------------------------------------|

|                 |                                     |
|-----------------|-------------------------------------|
| Carcinogenicity | No evidence of carcinogenic effects |
|-----------------|-------------------------------------|

## 12. Ecological information

|             |                                                                                                            |
|-------------|------------------------------------------------------------------------------------------------------------|
| Ecotoxicity | This product does not contain ingredients which are classified in the EU as dangerous for the environment. |
|-------------|------------------------------------------------------------------------------------------------------------|

|          |                               |
|----------|-------------------------------|
| Mobility | Completely soluble in water . |
|----------|-------------------------------|

|                                  |                                                                                                                    |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------|
| Persistence and Biodegradability | Its main ingredients will either dissolve rapidly and dissociate in water or are readily/inherently biodegradable. |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------|

|                           |                                                                                                                                                                                   |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Bioaccumulation Potential | Bioaccumulation of the components in this product is insignificant. Other Adverse Effects<br>No environmental problems are expected when the product is used / handled correctly. |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 13. Disposal considerations

|                |                                                                                                                                                                                                                                                                                                  |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Classification | This material and/or its container must be disposed of as hazardous waste EU Waste class<br>Disposal considerations Do not discharge into drains or the environment, dispose to an authorised waste collection point Disposal should be in accordance with local, state or national legislation. |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 15. Regulatory information

|              |                          |
|--------------|--------------------------|
| Risk Phrases | Irritating to eyes (R36) |
|--------------|--------------------------|

## 16. Other information

Text of R and S phrase codes used in this safety data sheet:-

R34 Causes burns;

R36 Irritating to eyes;

R37 Irritating to respiratory system;

R41 Risk of serious damage to eyes.

The information provided about the product on this Safety Data Sheet has been compiled from knowledge of the individual constituents. The data given here is based on current knowledge and experience. This Safety Data Sheet describes the product in terms of safety requirements and does not signify any warranty with regard to the product's properties. The data given here only applies when product used for proper application(s). The product is not sold as suitable for other applications - usage in such may cause risks not mentioned in this sheet.

Do not use for other application(s) without seeking advice from manufacturer. This Safety Data Sheet is provided in compliance with The Dangerous Substances Directive (67/548/EEC). This Safety Data Sheet is provided in compliance with The Dangerous Preparations Directive (88/379/EEC). This Safety Data Sheet is provided in compliance with The Safety Data Sheets Directive (2001/58/EC).

**DISCLAIMER OF LIABILITY :** The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This MSDS was prepared and is to be used only for this product. If the product is used as a component in another product, this MSDS information may not be applicable.
