

# Biological Guard -280 Conc

Part No. RXSOL-40-4003-020 — Generated 10 Oct 2026

## 1. Product and Company Identification

Product Name : **RXSOL-40-4003-020**  
Product Type : BIO Antifouling GUARD Liquid

### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Stock Point : Mumbai, Kandla, Kolkata, Chennai, Visakhapatnam, Fujairah, Muscat

Phone : +91 22 65113333 / 5555 / 9999 / 27611360  
Fax : +91 22 2781 1318 ::AOH :0091 9821214367  
Email : [mail@rxmarine.com](mailto:mail@rxmarine.com)

## 2. Composition / information on ingredients

| Chemical Name                                    | Concentration | CAS Number | EC Number | R Phrases*      | Symbols |
|--------------------------------------------------|---------------|------------|-----------|-----------------|---------|
| Amines, N-tallowalkyl trimethylendi-, diacetates | >25           | 68911-78-4 | 272-786-5 | 22, 34, 50      | C, N    |
| 2-Butoxyethanol                                  | >25           | 111-76-2   | 203-905-0 | 20/21/22, 36/38 | Xn      |
| Amines, N-tallow alkylpropylenedi                | 10-30         | 64742-94-5 | 265-198-5 | 65, 66, 51, 53  | Xn, N   |

\*See Section 16

## 3. Hazards Identification

Harmful

Danger For Environment

Odour : Characteristic odour  
Appearance : Liquid, pale yellow, soluble in water  
Contact with eyes : Risk of serious damage to eyes (R41)

|                   |                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------|
| Contact with skin | Causes irritation                                                                                              |
| Inhalation        | Harmful by inhalation, in contact with skin and if swallowed (R20/21/22).Very toxic to aquatic organisms (R50) |

## 4. First Aid Measures

|                   |                                                                                                                                                                                                                                             |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Contact with skin | Remove contaminated clothing immediately and drench affected skin with plenty of water. Then wash with soap and water.When in doubt or symptoms persist, seek medical attention Contaminated clothing should be laundered before reuse      |
| Contact with eyes | If substance has got into eyes, immediately wash out with plenty of water for at least 15 minutes Irrigate eyes thoroughly whilst lifting eyelids. Seek immediate medical attention.Continue flushing with water until medical help arrives |
| Ingestion         | Never make an unconscious person vomit or drink fluids.Give plenty of water to drink.Do not induce vomiting.Seek immediate medical attention                                                                                                |
| Inhalation        | Remove patient to fresh air.Keep warm and at rest, in a half upright position. Loosen clothing.When in doubt or symptoms persist, seek medical attention                                                                                    |
| General           | In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible) (S45)                                                                                                                            |

## 5. Fire-fighting Measures

- Flash point >70 deg C (CC)
- Decomposition products may include phosgene, Decomposition products may include carbon oxides
- In case of fire use water spray or fog, alcohol resistant foam, dry chemical or carbon dioxide (S43)
- Substance evolves toxic fumes, wear self-contained breathing apparatus
- Prevent run off water from entering drains if possible
- Use water spray or fog to knock down and absorb corrosive fumes
- Vapours are heavier than air and may travel considerable distances to a source of ignition and flashback

## 6. Accidental Release Measures

|                           |                                                                                                                                                     |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal Precautions      | Wear protective clothing as per section 8.Vapours are heavier than air and may travel considerable distances to a source of ignition and flashback. |
| Environmental Precautions | Do not allow to enter public sewers and watercourses.                                                                                               |
| Immediate Actions         | Use appropriate containment to avoid environmental contamination (S57)                                                                              |
| Clean Up Actions          | Absorb spillage in inert material and shovel up.Ventilate the area and wash spill site after material pick-up is complete.                          |

|                     |                                                                                                                                                                                                                                               |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Special Precautions | Wear protective clothing as per section 8. Avoid release to the environment. Refer to special instructions/Safety data sheets (S61).Vapours are heavier than air and may travel considerable distances to a source of ignition and flashback. |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 7. Handling and Storage

|          |                                                                                             |
|----------|---------------------------------------------------------------------------------------------|
| Handling | See Section 8.Eyewash bottles should be available.Avoid contact with skin and eyes (S24/25) |
| Storage  | Keep only in the original container in a cool, well ventilated place (S3/9/49)              |

## 8. Exposure controls and personal protection

|                                |                                                                                                                                                                                                                              |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure Limits                | TLV (TWA) 20 ppm, 122 mg/m <sup>3</sup> (1,2-Dichlorobenzene).                                                                                                                                                               |
| Exposure controls              | The undiluted product must not be used in a confined space without good ventilation.                                                                                                                                         |
| Occupational exposure controls | Wear approved respirator if exposure likely to exceed MEL/OES.Wear goggles giving complete eye protection.Wear suitable protective clothing, including eye/face protection and gloves (neoprene or nitrile are recommended). |

Gloves

Suit

Goggles

No\_Smoking

## 9. Physical and chemical properties

|                    |                                           |
|--------------------|-------------------------------------------|
| Odour              | Unpleasant odour, Strong smell of phenol  |
| Appearance         | Liquid, brown, dispersible in water       |
| pH 10              | 11 (5% in 50/50 H <sub>2</sub> O-IPA mix) |
| Boiling point &gt; | 100 °C at 760 mm /Hg                      |
| Vapour pressure    | not known                                 |
| Vapour density     | (air = 1) >01                             |
| Freezing point     | 0 °C at 760 mm/Hg                         |
| Insoluble in water |                                           |

Specific gravity (water=1) 1.02

Flash point > 70 deg C (CC)

## 10. Stability and reactivity

- This article is considered stable under normal conditions, May cause rubber to swell
- Avoid overheating
- Incompatible with strong oxidizing substances, Contact with alkaline earth metals may form explosive gases, Contact with alkali metals may form explosive gases
- See Section 5

## 11. Toxicological information

|                           |                                                                                                                         |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Toxicological information | No experimental data available Inhalation.Vapours or aerosols may cause irritation of eyes, nose and respiratory tract. |
| Contact with skin         | In cases of severe exposure, redness and irritation may develop.                                                        |
| Contact with eyes         | Causes irritation                                                                                                       |
| Ingestion                 | May cause gastro-intestinal disturbances.                                                                               |
| Carcinogenicity           | No evidence of carcinogenic effects.                                                                                    |

## 12. Ecological information

|                                  |                                                                                                                                                                                |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ecotoxicity                      | This product does not contain ingredients which are classified in the EU as dangerous for the environment.                                                                     |
| Mobility                         | Completely soluble in water                                                                                                                                                    |
| Persistence and Biodegradability | Its main ingredients will either dissolve rapidly and dissociate in water or are readily/inherently biodegradable.                                                             |
| Bioaccumulation Potential        | Bioaccumulation of the components in this product is insignificant. Other Adverse Effects.No environmental problems are expected when the product is used / handled correctly. |

## 13. Disposal considerations

|                |                                                                                          |
|----------------|------------------------------------------------------------------------------------------|
| Classification | This material and/or its container must be disposed of as hazardous waste EU Waste class |
|----------------|------------------------------------------------------------------------------------------|

Disposal considerations

Do not discharge into drains or the environment, dispose to an authorised waste collection point. Disposal should be in accordance with local, state or national legislation.

## 14. Transport information

### Proper Shipping Name

|                      |                                                                                       |               |     |
|----------------------|---------------------------------------------------------------------------------------|---------------|-----|
| UN                   |                                                                                       |               |     |
| Proper Shipping Name | Environmentall yhazardous substance, liquid, n.o.s. (contains alkyl propylenediamine) |               |     |
| UN NO                | 3082                                                                                  |               |     |
| Hazard Class         | 9                                                                                     | Packing Group | III |

### Road/Rail (ADR/RID)

|                      |                                                                                       |          |      |
